

Juki DDL-8700-7

1 NEEDLE LOCKSTITCH WITH AUTOMATIC THREAD TRIMMER

The Juki DDL-8700-7 is a 1 needle lockstitch machine which is designed to increase productivity as much as possible, with automatic features and a handy digital control panel.

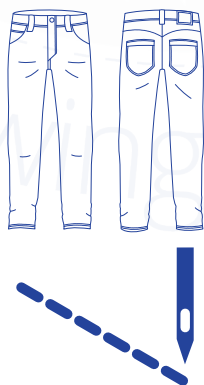

This model is best suited for sewing medium weight fabrics. It has the added benefit of being part of Juki's Eco Products range, and is more energy efficient than traditional machines. It also has production support functions including output control with number targets, operation measuring, and a bobbin counter to inform the operator in advance when it needs replacing.

APPLICATIONS

A classic lockstitch looks the same on both sides of the fabric and is perfect for general sewing where seams aren't required to stretch. This machine is ideal for apparel production, but if you have any questions about your individual requirements then please speak to our friendly team and we'll be happy to help.
