

Rexel R500

BAND KNIFE CUTTING MACHINE

The Rexel R500 compact band knife machine is a powerful and versatile tool for cutting fabric, leather, cardboard, upholstery foam, rubber, and paper. It can be set up with any type of band knife (straight, convex, concave, or toothed), and is solidly constructed with powder-coated steel to ensure that it is sturdy and durable.

The tabletop is airflow-equipped to increase the ease of material movement, and the cutting height is adjustable to suit the application. This makes it particularly well suited to cutting small stacks of material.
