

# Rexel ST-3

## PNEUMATIC LIFTING TABLE FOR UPHOLSTERY

The Rexel ST-3 lifting table is very popular with upholstery manufacturers as it is incredibly user-friendly and has been proven to increase productivity by at least 14% compared to standard upholstery trestles. It is constructed of durable steel with a sturdy carpet-covered tabletop, and the pneumatic cylinder is foot-controlled for ease of use. When it is turned off the table blocks automatically to prevent it from folding if the power cuts out. This is the standard version, there are many options available in the series including various different table top sizes and covers to suit your application.
