

JUKI®

Juki DLN-5410N

1 NEEDLE, NEEDLE-FEED LOCKSTITCH MACHINE

The Juki DLN-5410N is a lockstitch machine with a needle feed mechanism which increases the efficiency of production as well as the quality of the finished product. The two part system in which the needle moves in tandem with the inner presser foot means the fabric is pulled through the machine at an even rate.

This model is designed for sewing light to medium weight fabrics, particularly slippery materials such as silk or multiple layers, as the needle feed prevents puckering and produces consistently neat seams.

SPECIFICATIONS

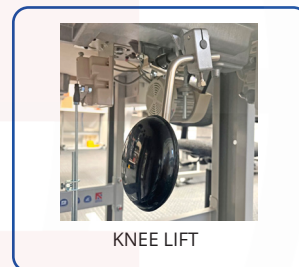

MAXIMUM SEWING SPEED	5,000 sti/min
MAXIMUM STITCH LENGTH	4mm
NEEDLE BAR STROKE	30.7mm
MAX. PRESSER FOOT LIFT	13mm
NEEDLE SYSTEM	16 x 231
FEED TYPE	Needle Feed
HOOK TYPE	Full Rotary Hook
LUBRICATION METHOD	Automatic
STITCH DIAL REGULATOR	Yes

COUNTRY OF ORIGIN	Japan
WARRANTY	12 months (back to base)

APPLICATIONS

A classic lockstitch looks the same on both sides of the fabric and is perfect for general sewing where seams aren't required to stretch. This machine is ideal for apparel production, but if you have any questions about your individual requirements then please speak to our friendly team and we'll be happy to help.
