

Juki DU-1181N

**1 NEEDLE, TOP AND BOTTOM FEED,
WALKING FOOT LOCKSTITCH MACHINE**

The Juki DU-1181N is a 1 needle lockstitch machine with a double capacity hook. It is fitted with a direct drive motor and built-in bobbin winder. We recommend this model as a high-quality entry-level walking foot machine. It doesn't have digital controls so is a more affordable option, but it is a sturdy and reliable machine which produces great results.

This machine is perfect for sewing medium to heavy-weight fabrics such as upholstery materials, leather, canvas, etc. The 15mm presser foot lift height makes it easy to work with thicker materials.

APPLICATIONS

A classic lockstitch looks the same on both sides of the fabric and is perfect for general sewing where seams aren't required to stretch. This machine is ideal for non-apparel production, but if you have any questions about your individual requirements then please speak to our friendly team and we'll be happy to help.
